---

#wohnfühlen

BÜRSTNER 2019

---

## #wohnfühlen

Travelling in a motorhome is not only a different way of taking a holiday, but is also a companion for life. The dream of being on the road in a mobile home that lacks nothing in living comfort. Bürstner brand has no equal for finding this dream. We always keep our customers' expectations firmly with this dream in mind:

Furniture not only needs to look good, but also be suitable for daily use. Finishes that are still impressive years later - ergonomic and functional every day. Our Bürstner team works with the product designers so that you feel at home in every Bürstner from the first moment onward.

## EVERYDAY ERGONOMICS

## Where style and design meet health and utility

No matter what we buy, design plays a decisive role. It is not enough for chairs and cupboards and other such items just to be “nice” these days – they also need to adhere to ergonomic design principles. The aim of ergonomics, which is derived from the Greek “ergon” (work) and “nomos” (law), is to optimise the working and living environment to meet human needs. Whether at work, during sleep, in the kitchen or on holiday – ergonomics play an important part in all aspects of modern-day life.

The reason is as simple as it is evident: ergonomic articles of daily use bring specific benefit because health, ease and comfort and other aspects of human efficiency are factored into the design! Bürstner has also been working on ergonomic improvements for many years now and has drilled down to the details – from the door handles and storage cupboard solutions right through to the bathroom fittings and improvement of the ergonomic details in the furnishings in the kitchen, bathroom and sleeping area.

## FEELING GLAD ALL OVER

## Seeking a sense of emotional security

Home is a place of great sentimental significance for us. The importance is underlined by the results of the representative consumer survey and carried out by the independent market research institute TNS Infratest. 90 per cent of those surveyed claimed that it was important to feel safe and secure in their home.

Another result of the survey shows that our colour preferences and tastes in furniture, accessories and soft furnishings change in different phases of our lives. Little wonder then that the feel-good factor within our own four

walls is a very high priority. And people who like harmony in their surroundings and furnish their home with style and taste generally want the same for their motorhome. They want to add their own personal touch and express their own individuality.

Bürstner is a trendsetter in interior design and offers its customers a wide range of options, such as a choice of different colours and fabrics for the upholstery. Nothing should be allowed to stand in the way of the perfect ambience for your personal well-being.

Whether in your own home, apartment or motorhome: your individual choice of furnishings enhances the feel-good factor

Foto: © Riviera Maison

## A REFRESHING NIGHT

## Why sleeping well is so important

Did you know that people spend about a third of their lives sleeping (24 years on average!)? Now before you start grumbling about it being a waste of your life, going to bed later or getting up earlier, remember that sleeping is not a waste of time! On the contrary – we all need our sleep in order to regain our strength, stay healthy and to be able to cope with daily life. Yet the number of hours we rest at night varies. Whereas some people are fit and ready to face the day after six hours of sleep, others need eight to 10 hours. As a general principle, it is true to say that quality is more important than quantity when it comes to sleep. The key factors here are peace of mind and the surrounding conditions in the “bedroom”.

### The right mattress and slatted base

Whether at home or in the motorhome: there should be no compromise when it comes to your mattress. Experts

say that it should have different zones, with softer areas under the shoulders and hips, allowing the muscles to relax but still providing sufficient support for the bones. This is why Bürstner insists on five-zone memory foam mattresses which boast high resilience levels, variable zones and excellent durability. Gel mattresses can also be recommended, for example, and are offered as an alternative option by Bürstner. They feel pleasantly cool on your body, moulding to its shape and bringing the sensation of floating as if on water. In each case it is essential to start with a high-quality slatted base.

### Finding the right pillow

It may be large, small, plump or thin but it is important for a pillow to support the cervical spine properly (small pillows are usually better at this). Only the head should be on the pillow and not the shoulders as well.

#### Our invention: the fold-down bed in the semi-integrated motorhome

Mounted lengthwise or crosswise, there are good reasons for both solutions. Please find your personal favourite in the series Lyseo TD, Ixeo T or Ixeo TL (lengthwise)

#### Plus points

Many of our motorhomes are below the 3.5-t class. This has several advantages for you:

- + More spare loading capacity
- + Lower fuel consumption
- + No additional conditions imposed under the road traffic regulations

#### 10 years' impermeability guarantee

We will give a 10 years' impermeability guarantee starting from the 2019 model year.

THE LYSEO TD

# Always in season

Enjoy your freedom and make the best of every season, whether hot summers or frosty winters: the Lyseo TD is always ready for action with the new Thermo-Floor double floor. The same floor will shield you from the cold and provide relief in the heat, giving you a pleasant sensation

underfoot at all times, even when walking barefoot in the vehicle. And that's not all: the Thermo-Floor construction is also designed to allow a level floor all the way from the cab to the bedroom door, for an end-to-end feel-good factor.

## The three-room apartment

The modern low-frame chassis and the clever positioning of the decals disguise the fact that the Lyseo TD Harmony Line boasts about 205 cm of headroom on the inside. Everywhere you look, you experience more freedom, greater comfort and better ergonomics.

We recommend you take a closer look at the specification variation offered by our "Harmony-Line" – which gives you extra "Wohnfühlen"!

# The Tardis

## Exterior advantages

- + All models under 3.5 t
- + Low-frame chassis for a smoother ride
- + GRP roof for enhanced protection from hail and severe weather
- + GRP floor
- + Wider rear axle
- + Extra-wide cabin door
- + Coupé entrance with electric step
- + Central service unit

## Interior advantages

- + Spacious look and feel
- + Headroom of approximately 205 cm
- + All models with fixed beds also available with additional fold-down bed
- + Thermo-Floor double floor
- + All on one level from the cab to the bedroom
- + No inconvenient wheel arches in the bathroom or shower
- + Underfloor storage compartment
- + LED lighting
- + Five-zone memory foam mattresses with special slatted base in all fixed beds
- + Two special upholstery for Harmony Line: Sydney Swing and Canberra Swing

TD 590  
Upholstery: Sydney Swing  
Design: Santina

LYSEO TD HARMONY LINE

The exclusive Harmony Line:  
Special design, comfortable  
accessories, functional details

Details (interior)

The Lyseo TD Harmony Line is a trendsetter and quick-change artist all rolled into one. The rear seating area in the TD 744 was your lounge just now and suddenly it has been converted to your bedroom in a flash. Or you might also choose to use the fold-down bed above the seating area – the decision is entirely up to you.

Details (interior)

There is even more room to move in the spacious bathroom in the Lyseo TD Harmony Line – and in the large shower which is free of inconvenient wheel arches – all made possible by the Thermo-Floor doublefloor.

More highlights

**Optical**  
The optional **light package** includes ambient lighting under the kitchen work surface, for example.

**Pleasure**  
The kitchen package comes with **backlit panelling** for a cosy subtle glow on the walls.

**Spacious**  
The **queen-sized bed** is one of the many design options in the rear. With wardrobe/closet on both sides.

**Handy**  
It is **so convenient** to have your favourite clothes within easy reach when you get up or go to bed.

**Refreshing**  
All showers are supplied with **high-end fittings** and – just as importantly – with a high-performance water pump.

**Functional**  
You can **hide the table cleverly** under the rear seats in the Lyseo TD Harmony Line 744.

## Slim lines

The exterior design of the Cappuccino's sweeping shape lends the Travel Van its sporty touch, which is emphasised by its slim exterior of only 2,20 m.

This goes unnoticed inside because the implementation of tried and tested solutions creates generous spaces.

# Compact can be comfortable

## Exterior advantages

- + Low-frame chassis
- + GRP roof for better hail and bad weather protection
- + Aluminium windows
- + Additional garage door on left
- + LED daytime running lights
- + Skyroof XL, with mosquito net roll-up screen and darkening blind
- + Electric entrance step

## Interior advantages

- + Air bags for driver and passenger
- + Air-conditioning in cab (manual)
- + Pilot seats can be swivelled, upholstered in lounge area fabric
- + Wardrobe (illuminated) and shelves under the single beds
- + Headroom height: 198 cm
- + Additional upholstery for bed extension
- + 5-zone memory foam mattresses
- + Adjustable LED spots and indirect lighting

The interior of the Travel Van is characterised by a beautiful design and incredible functionality.

Details (interior)

Clever solutions in the Bürstner Flexo washroom allow a relaxed shower, even in a compact area.

Details (interior)

The serial XL sunroof enables a panoramic sky view.

More highlights

**Comfortable and safe**  
Even on long distance routes the cruise control guarantees comfortable and safe driving.

**Multimedia**  
The multimedia system, including reversing camera and additional navigation option, ensures more driving pleasure, safety and comfort.

**Safe and attractive**  
The standard aluminium frame windows increase the safety and aesthetics factors.

**Eye-catcher**  
The Travel Van offers additional design options such as LED daytime running lights or a black painted radiator grille.

**Tread safely**  
Getting in and out is comfortable, thanks to the electric entrance step.

**Easy**  
One simple click activates the electric window lifters.

## Upper mid-range

### Exterior advantages

- + Low-frame chassis with wider tracking on rear axle
- + Painted front spoiler
- + LED daytime running lights
- + Bürstner hybrid rear lights
- + GRP roof for better hail and bad weather protection
- + Aluminium windows
- + Service unit
- + Wide XL access door
- + 3rd brake light in logo shape
- + Coupé entrance with electric step

### Interior advantages

- + Thermo-floor functional double floor
- + Floor storage cupboards
- + Air-conditioning in cab
- + Wood-free construction
- + 5-zone memory foam mattresses
- + Air bags for driver and passenger
- + Pilot seats can be swivelled, upholstered in lounge area fabric
- + Headroom height: 205 cm
- + Two USB charging outlets
- + Ambient lighting in kitchen, washroom, sleeping and living areas

Overview of the Bürstner "Wohnfüh!" attributes: The new Ixeo T has them all!

Details (interior)

A washroom that leaves nothing to be desired: light materials, generous shelves and a lot of storage room.

Details (interior)

The optional Skyroof Premium XL with electric sliding roof creates a lot of light inside. 5 LED spots and the circumferential strip light are responsible for the perfect ambient lighting.

More highlights

**Living culture**  
The new Vario roller blinds provide you with the option of adjusting the lighting conditions according to your personal requirements.

**Eye-catcher**  
The 3rd brake light is the distinctive rear of a Bürstner motorhome.

**Looking good**  
The rounded off roof/side wall transition supports the motorhome's automotive impression.

**Clever and smart**  
No matter where you stand or sit. Having a USB connection always nearby - it can be positioned anywhere on the light strip.

**Practical**  
The floor storage cupboard in the thermo-floor functional double floor offers many opportunities to stow material, shoes or drinks.

**Perfectly equipped**  
The transparent glass cabinet element with its integrated lighting is a modern eye-catcher.

## Design and functionality

The Ixeo TL was the first semi-integrated motorhome to feature a fold-down bed and set new standards in its field. The evolution of the fold-down bed from the widthwise version to the lengthwise option brings entirely new possibilities. It still cuts a striking profile in Cappuccino, proudly retaining its best known design feature and distinguishing characteristic.

All 3 layouts include the wood-free body with XPS insulation, the GRP roof and the wide XL cabin door, to name just some of the unifying features. The Ixeo TL – the original from the inventor.

# Crosswise to lengthwise

## Exterior advantages

- + Low-frame chassis with wide-track rear axle
- + GRP roof for enhanced protection from hail and severe weather
- + XL cabin door with coupé entrance
- + Aluminium frame windows
- + Service unit
- + All models up to 3.5 t

## Interior advantages

- + Electric fold-down bed in new ergonomic design (lengthwise)
- + Fixed overhead cupboards in fold-down bed area
- + Choice of two furniture finishes
- + Headroom of 198 cm
- + LED lighting
- + Spacious seating area

Spacious L-shaped seating area underneath the fold-down bed which has magically disappeared in the ceiling where it is almost invisible.

IXEO TL

Details (interior)

The interior-lit wardrobe: smartly placed in the entrance area. And next to it, the free-standing refrigerator - naturally just a reach away from the kitchen opposite.

Details (interior)

Simply remove the headrest to provide a handy surface between the seating area and the kitchen.

More highlights

**Handy**  
The **reading lamps** fitted on the sides in the cab are there to provide light exactly where you want it.

**Convenient**  
The low **coupé entrance** makes it easier to get in and out of the vehicle.

**Connected**  
The **USB port** is located in the middle of the dashboard panel in the ideal position for driver and passenger to charge mobile devices.

**Bright**  
The **Midi-Heki skylight** brings a generous supply of light and air for everyone inside. There are various ways in which the supply can be controlled and restricted.

**Tidy**  
The central **service unit** accommodates all the main controls for on-board utilities and waste disposal. Note the clever solution for the cable entry.

**Image and function**  
The **aluminium frame windows** are slightly tinted, fit perfectly and, at the same time, minimise wind noise.

## For the best times

Experience the feeling of being on the road in a modern motorhome with the Ixeo I. Sophistication and elegance awaits you in this Bürstner.

Modern building techniques, ergonomically designed components and clever detail solutions make your trip as comfortable as possible. Choose your favourite among nine different floor plans.

I 736  
 Upholstery: Porto Star  
 Design: Riva Loft

## Sophistication par excellence

### Exterior advantages

- + Low-frame chassis with wider tracking on rear axle
- + Bürstner hybrid rear lights
- + LED daytime running lights
- + Service unit
- + Wood-free body
- + Aluminium windows
- + Coupé entrance with electric entrance step
- + GRP roof for better hail and bad weather protection
- + XL access door

### Interior advantages

- + Thermo floor double floor
- + Airbags for driver and passenger
- + Headroom height 198 cm
- + Floor storage cupboards
- + Ambient lighting
- + 2 different furniture décors available
- + USB charging outlet
- + Interior furniture instead of fold-down bed possible on request

Extremely spacious feeling - whether in the lounge or bedroom, in the kitchen or in the en suite.

The Ixeo I  
change artist – first a lounge,  
now a bedroom!

Details (interior)

Many sophisticated new details add up to make you feel even more at home every day in the Ixeo I. For example, a scratch-resistant counter (optional) in the kitchen and the optimally sized sofa storage cupboard.

Details (interior)

The well thought-out lighting design makes a perfect atmosphere of comfort. Cleverly solved in I 736: With just a turn of a handle, up to four seats with 3-point safety belts appear.

More highlights

**A plus for appearance and function**  
The aluminium framed windows, slightly tinted and fitted perfectly minimise wind noise at the same time.

**Service unit**  
All important elements for on-board stashing or disposing are here.

**Safe, modern and efficient**  
The LED daytime running lights mean you are seen and noticed better by other drivers on the road.

**Clever and smart**  
The USB connector is well-placed in the dashboard.

**Comfort**  
The coupé entrance and the electric entrance step guarantee that you enter your motorhome comfortably and safely.

**Good things even better**  
You can have your motorhome equipped with the individually adjustable slatted frame system.

## Travelling in Royal Style

The Elegance is the flagship model in the Bürstner fleet. Its striking design, distinctive good looks and clean lines extend all the way from its expressive face to its masculine rear. A five-star luxury holiday awaits you in this motorhome with its lavish standard features and many additional functional details.

Just climbing in through the extra-wide cabin door is a pleasure and will prepare you for the ultimate wow factor on the inside.

# Ample room for luxury

## Exterior advantages

- + Low frame chassis for a smoother ride
- + GRP roof for enhanced protection from hail and severe weather
- + LED daytime running lights
- + Single handed garage locking system
- + Aluminium frame windows
- + Extra-wide cabin door with dual lock
- + Coupé entrance with electric step

## Interior advantages

- + Extra-high windscreen for panoramic view
- + Two furniture finishes
- + Insulated and heated double floor
- + Headroom of 205 cm
- + Direct and indirect lighting
- + Five-zone memory foam mattresses
- + Driver and passenger airbags
- + Adjustable reading lamp in seating area

Spacious, elegant and inviting.  
A lovely place to entertain.

Details (interior)

Do you love buying fresh ingredients locally and enjoying them at their best? Your L-shaped kitchen is entirely fit for purpose. The deep sink and the gliding action of the soft-closing drawers are just some of the features which will whet your appetite.

Details (interior / exterior)

Generous proportions in the bathroom as well (fittings: Salsa Glen). Safe and convenient vehicle entry: extra-wide cabin door with coupé entrance and electric courtesy step.

More highlights

**Optimum storage**  
The **side hatches** are handy places to store your sports equipment, shoes or bulky items so that they are always easily accessible.

**Clever solution**  
The **storage compartments** integrated in the double floor provide a safe place to transport luggage or drinks.

**Variability**  
The modern **reading lamp** above the centre seating area is best placed to provide the optimum lighting.

**Comfort**  
The **large fold-down bed** above the cab can also supplied with electric controls..

**Privacy**  
The optional **opening and closing** action of the blind on the huge windscreen works at the press of a button.

**Added safety**  
The **LED daytime running lights** are set stylishly in the front light fitting, making sure you will be seen more clearly on the road .

## Feel-good factor

### Exterior advantages

- + Wide-track low-frame chassis
- + Tandem rear axle for great road holding
- + Electric entry step
- + Premium cabin door with dual lock
- + Aluminium frame windows
- + Insulated and heated double floor
- + GRP roof for enhanced protection from hail and severe weather
- + Additional garage door on the left

### Interior advantages

- + Driver and passenger airbags
- + Six travel seats with 3 point seat belts
- + Hot water heating system
- + Generously proportioned interior design
- + Sliding partition for cab
- + Fold-away overcab bed
- + Kitchen with oven and extractor hood
- + Spacious bathroom

The space in a model with an overcab is incredible – the space in the Argos is a miracle!

ARGOS

Details (interior)

Enjoy the luxury that real size offers - including in the kitchen.

Details (interior)

Lashing rails with variable eyelets keep things safe and secure in transit in the spacious rear garage. The aluminium frame windows fit snugly and create an elegant exterior profile.

More highlights

**Basement**  
The heated **double floor** offers plenty of room for bulky luggage and forms a protective barrier from the cold in sub-zero temperatures..

**Floor storage**  
The double floor is accessible from outside as well as inside. It offers many possibilities to stash sports kit, shoes or beverages.

**Pleasant temperature**  
The **hot water heating system** brings creature comforts with its even distribution of heat, low energy consumption and silent operation.

**Fold-down alcove**  
For more space, the **fold-down alcove**, can be simply folded up when not in use.

**Well protected**  
The **premium cabin door** comes with a window and an integrated waste bin as well as a dual lock system (example model shown here).

# A climate of perfection

When Bürstner developed its Clima Concept, the company thought of everything needed to optimise conditions at all times.

Many useful improvements play their part in ensuring that you always feel relaxed in the vehicle – no matter what the temperature is outside with Bürstner you can holiday all-year-round!

- + XPS insulation in many models
- + Optimum positioning of heating unit
- + Opening windows all-round

## WOOD-FREE DESIGN

(Ixeo TL, Ixeo I, Ixeo T, Elegance)

## GRP ROOF & FLOOR

The glass-reinforced plastic (GRP) roof provides protection from hail and severe weather. The GRP subfloor has the impact strength to brave the elements which attack from below.

### TOP TIP

Pleasant indoor conditions depend on a balanced supply of fresh air and an optimum circulation of air in the vehicle.

## AIR PLUS: BEST AIR CIRCULATION AND HEATING SYSTEM (WARM AIR HEATING)

## HOT WATER HEATING DESIGN PRINCIPLE

The hot water heating system brings creature comforts with its even distribution of heat, low energy consumption and silent operation. Convactor heaters on the exterior walls heat the air as well as the walls and furniture, creating an air seal which acts as a barrier between the cold air and the windows. Storage cabinets with ventilation at the rear also help to push the air up to the ceiling until it is heated again by the convectors.

## LIGHT AND VENTILATION

Light and airy: the interior of every Bürstner is designed to live up to this claim. Bürstner has also made many major and minor improvements to make sure you will have fond memories of your holiday to look back on.

**Skyroof**  
Generously dimensioned for a light and bright interior.

**Skyroof XL**  
The extra-large skyroof lets in even more light and air.

**Inviting and light**  
Large window surface on both sides creates a very inviting atmosphere.

# On closer inspection

Ergonomics and functionality are just as important as looks. That is why every Bürstner strives to bring these two aspects into perfect harmony. For us the perfect package includes the following:

- + Easy access
- + User-friendly operation
- + Comfort and convenience
- + Sophisticated design
- + Safe road handling

## SERVICE UNIT

## 10 YEARS' IMPERMEABILITY GUARANTEE

#Wohnfühlen is often associated with a comfortable and functional environment. For us, however, #Wohnfühlen means so much more. It also represents peace of mind for our customers to own a product that benefits from 60 years of experience in building recreational vehicles. This experience is also reflected in the 10 years' impermeability guarantee that we will give starting from the 2019 model year. The prerequisite is an annual check (with costs) by a Bürstner contract partner.

## COUPÉ ENTRANCE

**Easy come, easy go:** the low-level entry makes it nice and easy to get in and out of the vehicle.

## MORE HEADROOM

**Think big!** More comfort for large people and a perfect spacial feeling for all travellers (Lyseo TD, Ixeo T, Elegance). Even 212 cm in the Lyseo Time I.

## ERGONOMICS IN THE BATHROOM

It is a big challenge to design bathrooms and toilets to offer both maximum possible efficiency and functional capability. Bürstner has the flexibility to combine standard designs with customised layout solutions.

**Vario Bathroom**  
The turning point: for more room to shower, simply swivel the washbasin to one side.

**Flexo Bathroom**  
All in one: swivel the washbasin and back wall to the side to reveal a shower of impressive proportions.

**Space Bathroom**  
A clean break: the bedroom and bathroom area can be separated from the rest of the living area – for guaranteed privacy.

## ERGONOMICS IN THE LOUGE & BATHROOM

**Entrance assistance**  
Step with double function: get into bed comfortably and have storage space all in one.

**Fold-down bed**  
The bed is built in lengthwise and can be pulled down almost as low as seat height.

**Grab and go!**  
The swivel centre element frees up a pull-out on bearings – perfect for a coffee machine.

**Night lights**  
Find your way around easily, even in the dark. The LED night light system will guide you the pleasant way.

## EXTRA-WIDE CABIN DOOR

- XL cabin door**
- + 700 mm door width (exterior dimension)
  - + Single locking mechanism
  - + Waste bin
  - + Coupé entrance

- XL premium cabin door**
- + 700 mm width door (exterior dimension)
  - + Window
  - + Dual locking mechanism
  - + Waste bin
  - + Fly screen
  - + Coupé entrance
  - + Central locking (optional)

# Are you lying comfortably?

Büirstner has all you need to help you relax after a busy day and recharge your batteries ready for new adventures.

There are beds to cater for every taste – single, double or queen-size beds. Then there are some clever features which make it really comfortable to lie in all positions. Sleep well – and sweet dreams!.

Single beds

Queen-size bed

Transverse rear bed

Fold-down bed/alcove bed

Fold-down bed in semi-integrated models

Fold-down bed in integrated models

## 3 GOOD REASONS

### Optimum comfort

A combination of slatted base with flexible rubber supports and five-zone memory foam mattress for optimum distribution of body weight. (depending on model and layout)

### Mattress cover

Hypo-allergenic, removable and washable

### Fitted sheets

Fitted sheets are supplied as standard in many models.

## FRONT BED DESIGNS

### ... in the Ixeo TL/ Ixeo T

The electric fold-down bed is built in lengthwise and can be lowered down to almost bench seat level (fig. Ixeo TL).

### ... in the integrated model

Enjoy the luxury of a second bed above the cab. Also available with electric control on request (subject to model).

### ... in the overcab model

The alcove bed is simply raised up when not in use – and lowered down in the evening to provide an ample double berth.

## REAR BED DESIGNS

### Single XL beds

Almost every single bed layout allows for a minimum bed length of 200 cm.

### Free-standing double bed

The queen-size bed can be easily accessed from either side and there is a little table on each side.

### Rear bed

This comfortable and luxurious bed is built in across the rear and measures almost 200 x 150 cm.

# Clever solutions

Anyone travelling for any length of time, perhaps taking the occasional road trip, needs space for the big things and all the little necessities.

Bürostner is on a mission to exploit every last millimetre of space and to come up with clever design solutions to maximise storage capacity.

- + Full-width garage doors
- + Optional garage access on the left
- + Underfloor storage compartments
- + Loading space for long items
- + Inside and outside access to storage places
- + Special scratch-resistant coating on garage floor for added protection

## GARAGES

All aboard: plenty of room for everything with easily accessible cargo holds and convenient storage spaces. There is space in the rear garage to take your entire fleet with you – and handy compartments for bulky items. The garages in some models are accessible from both sides.

## DOUBLE FLOOR

The heated double floor offers plenty of room for bulky luggage and forms a protective barrier from the cold in sub-zero temperatures for your valuable belongings.

## WARDROBES

Dressed to impress: by improving the layouts we were able to create even more space for large and easily accessible cupboards, whether in the bathroom, living room, in the bedroom or under the bed.

## VERSATILE SOLUTIONS

### Pull-out larder units

Sorted: the pull-out larder units have plenty of room for all your kitchen utensils and space to keep everything organised.

### Deep cupboards

Tidy: the extra depth means you can fit more in the cupboards.

### Shoe cabinets

Practical: the shoe compartments are exactly where they belong – in the entrance area.

### Under-sink storage

Handy: for all the things you need within easy reach in the bathroom.

# The ingredients for a good trip

You can also expect the best from Bürstner in terms of driveline and chassis technology, because our business partners have the same standards of perfection as we do.

All Bürstner models are built on chassis with outstanding track records in terms of reliability, functionality and safety.

A low-frame chassis with a wide-track rear axle is used in many model ranges which improves ride comfort and road handling while also enabling new layouts with a lower vehicle height

## CHASSIS

### Spaciousness

There is plenty of room to move in the cab and an easy passage through to the living area.

### Seats with armrests on both sides

### Wide-track rear axle

The wheel arches are spaced well apart to provide greater roadholding ability and additional space..

### Special low-level frame

Developed to reduce the weight of the vehicle without compromising its stability. It increases the loading capacity and lowers the centre of gravity..

## Strengths

- + Latest generation of frames and engines for safety, functionality and ride comfort
- + High torque in the low rpm range for better acceleration
- + Reduction of fuel consumption and CO<sub>2</sub> emissions
- + Euro 6 turbo-diesel engines – selected models feature AdBlue technology
- + Many engines available in combination with the latest automatic gearboxes
- + All engines are absolutely suited for use in cities.

### Modern motor technology

The motors transfer power over a variety of transmissions (manual or automatic) which were specially adapted for the needs of motorhomes.

## MORE SAFETY

### Third brake light

The third brake light provides more safety as well as high brand recognition value.

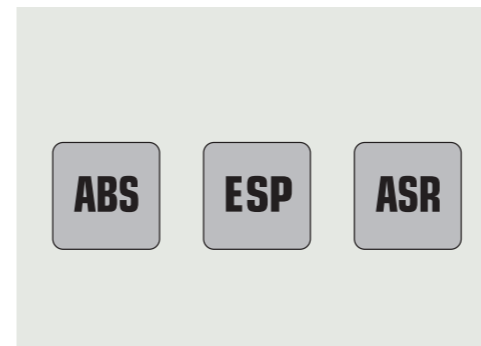

### Reversing camera

The optional reversing camera makes it easy to see even low-lying obstacles when manoeuvring the vehicle.

### Fifth seat with a safety belt

In a matter of seconds, you can create an extra seat with a safety belt for another passenger ((Fig. as an example, optional extra subject to model and floor plan).

### Electronic control systems

Three technologies for more safety: the ABS system stops the wheels from locking when you hit the brakes and prevents loss of traction and control. The ASR system prevents the wheels on the drive axle from spinning when you accelerate. The ESP system is specifically designed to prevent the vehicle from swerving.

### Toptron CPU

The optionally available Toptron CPU (Crash Protection Unit) seals off the gas supply in the event of a crash (or if the vehicle is tilted at a dangerous angle of incline). Gas appliances can also be operated en route if the Toptron is fitted (installed as standard in some cases).

### Warranties/ISO standard

Each Bürstner motorhome is covered by a comprehensive warranty for two years from the date of purchase. We even offer a 10 year water ingress warranty with an annual inspection (subject to an additional charge). Development, production and distribution are certified as conforming to the international ISO 9001:2015 standard.

### Premium XL door

The extra-wide premium cabin door offers a twofold benefit, with its double locking mechanism for extra security and its wide opening for additional safety when climbing in and out of the vehicle. Fitted as standard on many models.

# Local customer service is our strength

“Anyone who is out and about in a Bürstner should always experience an unlimited sense of comfort and well-being wherever they go.”

This aim relates to everything we do – and especially to our service. We were one of the first manufacturers to open a dedicated service centre for our customers in addition to the option of contacting us by telephone or through our trading partners. Service with a smile, face-to-face, one-on-one – so that you can enjoy your free time in your Bürstner and take back memories of an unforgettable experience.

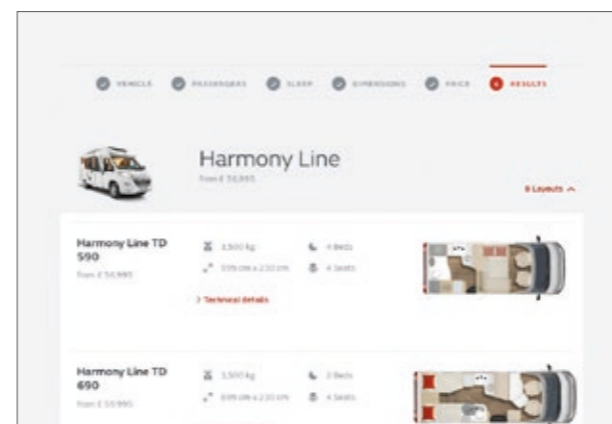

### Mobility without borders

When you buy a new Bürstner motorhome, you can rest assured knowing that you will be covered in the first year of motoring in the event of an accident or breakdown or if a driver is taken ill – and that's a guarantee.

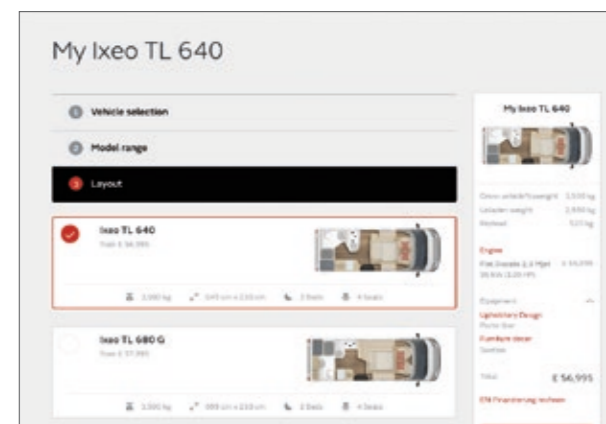

The following services are included in the assistance package provided by the chassis manufacturer (only Fiat). All the details are contained in your vehicle documents:\*

- + Breakdown service at home and abroad
- + Recovery service from roadside to garage
- + Hotel accommodation (for up to three nights)
- + Delivery of spare parts to foreign countries
- + Courtesy car
- + Return of vehicle and repatriation of passengers

## ONLINE SERVICES

**Online advisor**  
Which vehicle suits my needs? You answer a few questions about what you require in a motorhome then you are shown a selection of the most appropriate layouts in the Bürstner range.

**Vehicle configurator**  
Configure your own dream-mobile. Once you have found the best layout, you can use the configurator to assemble your own ideal recreational vehicle in a few steps.

## SHOWROOM

Bürstner was one of the first manufacturers to open a service centre complete with showroom, setting new standards in customer service. **New products are on show here every season.**

# Your lifestyle choices

“Wohnfühlen“ in just two easy steps. Create your own perfection! Select the upholstery finish that suits you best. There's a selection of several high-quality materials for seat and back upholstery. The back upholstery adds colour and can be selected depending on the category.

## There is something for every taste

Ask your dealer which types of seat and back upholstery are offered for the vehicle you select.

Printed in Germany

The technical data in this catalogue were current at the time of going to press. Although we check the content carefully, we cannot guarantee that the document is free of printing errors. We reserve the right to make changes to the features and improvements to the model in the course of the relevant year. The design and colour of fixtures and fittings may vary from those illustrated, as is customary in the trade and due to the nature of the materials used. The same applies to technical modifications to the vehicle insofar as the overall production quality is maintained or improved and provided that the vehicle remains fit for the intended purpose. Before signing any contracts, please consult your local authorised Bürstner stockist for information on the latest products and models. All the prices quoted for accessories are as installed in new vehicles in the factory.

The pictures might show optional equipment or decorative items which are not included in the scope of delivery. Valid for deliveries from 12 June 2018 onwards. Subject to change without notice, errors and omissions excepted. All information is based on the criteria of the German market.

Any modifications to the factory condition of your vehicle may compromise its safety and roadworthiness. Please take heed of all the regulations relating to the safe use of your vehicle. Make sure that you are in possession of the correct driving licence to be allowed to drive a motorhome. Be aware of the "technically permissible maximum mass" of your vehicle and do not exceed this legal limit. Please note the axle load limits and make sure that the load is distributed according to the axle weight rating. Roof fittings and aerials will alter the height of the motorhome. The overall length of the vehicle will increase if the rear ladder is fitted.

The combinations of roof accessories which can be fitted on the vehicle will depend on the model in any given case.

Your Bürstner stockist is looking forward  
to seeing you!
