ROLLER TEAM 2019 the COLLECTION

Everyone is different, and no two journeys are the same. That's why Roller Team has carefully designed a range of motorhomes to suit every lifestyle, family and adventure.

For families who want to share adventures, the Auto-Roller range offers up to seven berths and flexible layouts that are ideal for socialising, relaxing and creating a lifetime of memories.

Brand new for 2019 the Toleno brings Roller Team's style and flair to an agile compact leisure vehicle. The Toleno is perfect for finding adventure anywhere, be it city breaks or off-grid exploring.

Seeing new sights doesn't mean abandoning the comforts of home. The T-Line range has everything you need for effortless, enjoyable journeys.

Whether you're a first time motorhomer or an experienced traveller, if you're looking for outstanding specification at a competitive price, the Zefiro delivers in every area.

And when you don't want to compromise on luxury, the spacious A-Class Pegaso range will exceed your every expectation and allow you to travel in style wherever you go.

Head out to discover new sights and experiences, feeling relaxed and refreshed and ready to take on the world.

ROLLER TEAM

THE EVOLUTION OF PROTECTION

EXTREME PROTECTION SYSTEM

To help you make the most of your motorhome in comfort and safety, the roof, side walls and floor are constructed using our unique EVO TECHNOLOGY.

The result of extensive research and development, EVO gives greater protection from the elements and offers exceptional levels of thermal and acoustic insulation.

It gives all Roller Team motorhomes greater structural resistance meaning that you can travel further, and for more of the year, with complete peace of mind.

5 year habitation warranty
2 year base vehicle - Fiat
3 year base vehicle - Ford
10 year integrity warranty

10 years' Body Construction
Warranty with Extreme
Protection System EVO

ROOF

Wood-free, fibreglass roofs with Styrofoam® insulation protect your motorhome from the elements and keep it warm. Extruded plastic inserts further improve performance.

SIDE WALLS

To create great sound-proofing and insulation, Styrofoam® is used in all wall panels. Durable fibreglass and high density extruded plastic offer protection against weathering.

FLOOR

The protection continues in the floor. Upper and lower fibreglass coverings offer further insulation and resistance to damage, helping to keep your motorhome in the best possible condition.

Like previous years, the 2019 season models feature soft material protection between internal furniture and outer body connections, which limits unwanted road noise. Plastic spacers separate the lower floor from the chassis rail, significantly reducing creaking and friction.

27

Find out more... visit www.rollerteammotorhomes.co.uk

ROLLER TEAM THE PERFECT ATMOSPHERE

Roller Team's Breathe project focuses on enabling the free movement of air in your motorhome, creating a healthy and protective environment.

28

Fixed beds are fitted with staves and have breathable fabrics, while ventilation panels are fitted throughout, improving air circulation and stabilising the temperature.

This helps to prevent condensation, maintaining your motorhome in optimal condition and creating a comfortable environment for you.

Breathe project

- 1 Heating in the overcab area
- 2 Permanent ventilation inside all wall units
- 3 Perimeter heating in all models with rear twin beds and garage bed

DESIGNED TO
BREATHE

CHECKED AND SAFE

All of our motorhomes are fully tested to ensure they meet all relevant safety and quality standards.

Electric, water and gas systems, and all onboard appliances are installed and checked by experienced technicians to ensure they're all in optimum working condition; safe, reliable and efficient.

Climate chamber tests ensure the best possible thermal performance in extremes of temperature.

Enjoy all your getaways secure in the knowledge that your Roller Team motorhome is reliable and safe. We know you'd expect nothing less.

DATE & ACCURACY: The contents of this publication are as accurate as possible at the time of going to press (Oct 2018), but this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Details of performance, dimensions and weights are subject to minor deviations within factory tolerance limits (max +/- 5%).

SPECIFICATIONS & DISCREPANCIES: Trigano S.p.A. reserves the right to continually alter product or equipment specifications, prices and model ranges as materials and conditions demand, including during the course of a model year. This may affect the appearance, Mass in Running Order and other specifications, and therefore some discrepancies may arise between the published information and the model supplied. Colours shown in our brochures are representative only.

Please note, this brochure is only a guide. For the latest information on our motorhomes please visit our website www.rollerteammotorhomes.co.uk

OPTIONAL EXTRAS: Photographs may show vehicles fitted with optional pack(s), other optional extras and may contain photography props not included in the standard specification of the vehicle. Optional packs and extras are available at extra cost, quoted in the current Roller Team price list.

CONFORMITY: All Motorhomes in this brochure conform to the European Standards for Motorhomes: EN1646 -1, EN 721, EN1949 and EN 1648-2. They have also been granted European Whole Vehicle Type Approval to EC Directive 2007/46. We would strongly advise against modifying vehicles in any way that could affect the validity of these Standards or Directives.

FIAT COMFORT-MATIC GEARBOX: The Comfort-Matic gearbox (if specified) is an electronically controlled manual gearbox that has two modes 'manual' and 'automatic'. In 'manual' mode the driver is responsible for choosing the most appropriate gear depending on the vehicle operating conditions. In 'automatic' mode the gearbox will shift the gears based on the vehicle speed, engine rpm and the pressure applied to the accelerator.

The accelerator must not be used to hold the vehicle on any hill as doing so will cause the clutch to burn out prematurely. For more information on the Comfort-Matic gearbox please refer to the Fiat handbook supplied with your base vehicle.

SATELLITE NAVIGATION AID: Your vehicle may be fitted with an audio/visual navigation aid. This navigation aid is designed to assist the driver whilst travelling, and it is not meant to replace a driver's self-judgement as to the suitability of a specific route for their vehicle. Navigation systems must always be used in a manner which does not affect the driver's ability to drive safely, and does not affect the safety of other road users.

PRIVATE EXPORTING/IMPORTING: Roller Team Motorhomes are designed and manufactured to operate in a specific country or region, and therefore it is imperative that when purchasing a new vehicle the buyer is fully aware of the design and operating parameters of the product. Vehicles purchased in the UK are not only built to the necessary European Directives and Standards (e.g. ECWVTA - Type approval), but are equipped with components that are designed to operate in a typical European temperate climate.

Should a buyer choose to export a registered vehicle from the UK, or purchase a vehicle from a non-aligned dealership outside the UK, it is their responsibility to ensure that any required modifications have been completed to the correct standard, and that the vehicle complies with all legislation of the country in which the vehicle is to be registered. Any equipment that is operated in a country that it is not designed for may not perform correctly and could fail. This equipment may also not be covered by the appliance manufacturer's warranty.

Similarly, Roller Team vehicles are designed to be used on normal tarmac roads, with occasional off-road campsite use. Should a vehicle be used outside of these conditions, the vehicle could suffer undue load, stress and ingress of debris, and this could cause damage or failure. This could invalidate any applicable manufacturer's warranty and Trigano S.p.A. will not be held liable for any such damage or failure.

ROLLER TEAM DISTRIBUTORS AND RETAILERS: Our distributors and retailers are not agents of Trigano S.p.A. and have no authority to make representations or commitments on our behalf. Please contact us if you require any clarification of any contents in this brochure.

RECYCLING: This brochure (if in printed form) uses sustainable resources. When you have finished with this brochure please recycle it.

Trademarks: Roller Team is a registered trademark of Trigano S.p.A. The Bluetooth word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Trigano S.p.A. is under licence.

iPod, iPod touch and iPad are trademarks of Apple Inc. registered in the US and other countries.
